Silicon Lagoon Mission
Discover Africa’s fastest growing tech startup ecosystem in Lagos, Nigeria

Program
Dear Participant,

We are thrilled you are interested to join our Go Global ‘Silicon Lagoon mission’ to discover the booming Nigerian startup ecosystem! Startups.be and Close the Gap have joined forces again to organize this truly unique mission to one of the most entrepreneurial countries in Africa, with a startup scene that attracts developers and investors from all over the world.

We’re honored that Minister De Backer, Minister of the Digital Agenda, Telecommunications and Post Office (responsible for administrative simplification, the fight against social fraud, the protection of privacy and the North Sea), will be joining accompanied by a large press delegation. We are also excited by the interested participants representing leading Belgian start-ups, corporations, NGOs and academics.

This program will enable you to discover one of the most thriving tech ecosystems in the world, learn more about business opportunities in Africa, meet the local players, pitch to local and international investors and mingle with fellow entrepreneurs.

# Practical information

If you haven’t already registered, please do so **before March 1** on close-the-gap.org/Nigeria or on startups.be

| **Airport** | Don’t forget to **book your own flight ASAP**. You will arrive at the Murtala Muhammed International Airport in Lagos. Transportation will be arranged. Please communicate your flight number, arrival/departure time, and passport number to Marie.verbreyt@close-the-gap.org (We need it for the Nigerian Embassy) |
| **Hotel** | Accommodation at the **Eko Garden Hotel*** is foreseen for four nights. Each participant is responsible to pay onsite for any additional charges to the room with their own credit card. Address: 1415 Adetokunbo Ademola Street, Victoria Island, Nigeria +234 1 277 2700 (see p. 13 for the map of the hotel) |
| **Transportation & traffic** | All local transportation will be organized with 2 **coaster buses** and mobile police will be present in each bus. Nigeria suffers from huge **traffic congestion**. While we have carefully prepared our program accordingly and limited the locations, unforeseen traffic conditions may occur. |
| **Temperature & dress code** | Temperature of that time of year in Lagos is hot! On average min 27°C to max 35°C with rain. (An umbrella will be handy.) The dress code during the duration of the trip is **smart casual**. |
| **Other practicalities** | The currency in Nigeria is the **Nigerian naira**. 360 Nigerian naira = $1 or 0,8€. The time zone of Nigeria is the same as Belgium. |
The *** star Eko Garden hotel is conveniently located on Victoria Island, within the Eko Hotels Suites compound. This secured site hosts 4 hotels, 9 restaurants, bars, a swimming pool and a gym. It’s THE meeting place for businesses in Lagos.
Address: 1415 Adetokunbo Ademola Street, Victoria Island, Lagos
Close the Gap is an international social enterprise that aims to bridge the digital divide by offering high-quality, pre-owned computers donated by large-and medium-sized corporations or public organizations to educational, medical, entrepreneurial and social projects in developing and emerging countries. Close the Gap also powers Worldloop (sustainable e-waste recycling), the Leap2 program (supporting entrepreneurship and innovation), and the Digital for Development platform, all contributing to creating impact in Africa and other developing countries. www.close-the-gap.org.

Startups.be is the one-stop-shop for Belgian tech entrepreneurship. They partner with startups to achieve their global ambition, facilitate joint innovation with business partners worldwide, and are the independent reference center of excellence in the Belgian startup ecosystem. www.startups.be

D4D-Be Platform: First of its kind Belgian Digital for Development platform, initiated by the Belgian Development cooperation (DGD), launched in September 2017, and coordinated by Agoria and Close the Gap. Its focus is to bring all actors of development together by creating and facilitating an eco-system for all stakeholders, existing projects and opportunities using digital in development. Ultimate goal is to build a bridge between the Belgian private sector and the development sector in realizing the Sustainable Development Goals and create new partnerships.
